Mammoth Interactive kurzuslista

Tartalomjegyzék

1. Mammoth Interactive kurzuslista
    1. Tartalomjegyzék
    2. Complete Learn to Code Bundle - New Years Resolution Success Bundle
        1. Prompt Engineering Path (No-Code)
        2. Image Generation Path (No-Code)
        3. Large Language Models Learning Path
        4. Python Machine Learning Path
        5. Game Development Path
            1. Unity Courses
            2. Unreal Courses
            3. Godot Courses
        6. Web Development Path
        7. Cybersecurity Path
    3. The Complete Excel, Python and Machine Learning Mega Bundle Encore+
        1. Get Started with Excel:
        2. Dive Deep into Excel
        3. Learning Excel Power Tools
        4. Learn Python Data Science:
        5. Prompt Engineering with Copilot (First-Time Exclusive Humble Bundle Launch)
        6. Machine Learning Fundamentals (First-Time Exclusive Humble Bundle Launch)
        7. Dive into Machine Learning:
        8. Python for Stock Analysis:
        9. Python for Automation:
        10. Automation with ChatGPT:
        11. Bonus courses
    4. The Complete AWS, CompTIA, Azure and Google Cloud Certification Bundle
        1. Start Here: Google Cloud Machine Learning
        2. Let’s Begin: CompTIA Fundamentals
        3. For Beginners: Windows and PowerShell
        4. Next: Microsoft Azure Machine Learning
        5. Continue with: Google Cloud Fundamentals
        6. Dive deep: Microsoft Azure Certification
        7. Continue to: Amazon Web Services (AWS) Certifications
        8. Up next: CompTIA Security
        9. Up next: Java Spring Boot Mastery Bundle: From Beginner to Advanced with Practice Exam
        10. Dive deep: Cybersecurity
        11. Next: Continue your AWS journey
        12. Next: Continue your CompTIA journey
        13. Coming up: More AWS courses
        14. Coming up: Continue your Azure journey
        15. Coming up: More CompTIA

5. The Complete 130-HOUR Prompt Engineering, API and Game Development Bundle
    1. Welcome to Prompt Engineering
    2. API Programming Prerequisite
    3. Claude Chatbot Software Integration with API Programming
    4. Advanced Integration with Anthropic API
    5. Build Advanced Claude Chatbot Coding Projects
    6. Gemini Chatbot Software Integration with API Programming
    7. AI in Godot Game Development
    8. AI in Unity Game Development
    9. AI in Unreal Game Development
    10. AI in 3D Modeling
    11. Prompt Engineering with ChatGPT
    12. OpenAI Chatbot Software Integration with API Programming
    13. Business and Financial Prompt Engineering
    14. Educational and Document Management Prompt Engineering
    15. Creative and Multimedia Applications
    16. Data Science and Analysis
6. The Complete Advanced Algorithms Programming Bundle
    1. Fundamentals of Algorithms
    2. Data Structure Algorithms
    3. Foundational Algorithms
    4. Advanced Algorithms
    5. Deep Dive into Algorithm Theory
    6. Build Web Development Algorithms with JavaScript
    7. Unity Algorithms Mastery
    8. Algorithms in Coding Languages Series
7. The Complete 101-HOUR Learn to Code, Python and Machine Learning with 770+ ASSETS Bundle
    1. Start here! Learn to code.
    2. Ultimate Python Developer's Toolkit (Codebases)
    3. Python for Finance Master Series
    4. Mastering Predictive AI with Python and Cursor
    5. Data Science Pathway: Building Solid Foundations
    6. Machine Learning Pathway
    7. Advanced Mastery: Conquering Complex Challenges
    8. Build Games with Python
    9. Build User Interface Applications with Python
8. The Complete Crush Your New Year's Resolution Learn to Code Bundle
    1. Start Your Game Development Journey
    2. Start Your Web Development Journey
    3. Build Modern Web Projects
    4. Advanced Software Development
    5. Start Your 3D Modeling Journey
    6. Start Your Python Journey
    7. Build Projects Fast with Assets

Complete Learn to Code Bundle - New Years Resolution Success Bundle

Recommended Course Order

Prompt Engineering Path (No-Code)

- The Definitive Beginners Guide to Prompt Engineering with ChatGPT
- ChatGPT Prompt Engineering for Sales - The Ultimate Masterclass
- Mastering Business Automation with ChatGPT Prompt Engineering

Image Generation Path (No-Code)

- Midjourney AI Image Generation Mastery - From Beginner to Expert
- Edit and Retouch Images with Discord Midjourney AI - Full Bundle
- Build Vector Art with Midjourney Artificial Intelligence - Comprehensive Techniques

Large Language Models Learning Path

- ☐ Python Programming Fundamentals - The Ultimate Learning Path
- OpenAI Vision AI Image Generation - The Complete Bundle
- Advanced Video Analysis and AI Python App Development with OpenAI Vision
- Build a Screenshot to Code OpenAI Python App - Step-by-Step Mastery
- Build a ChatGPT Clone with Python Custom UI - From Scratch to Advanced
- Build a ChatGPT Chrome Extension with Python - Full Development Bundle
- Comprehensive Guide to Building AI Web Apps with ChatGPT and Python
- ChatGPT Prompts and Best Practices for Python Coders - Complete Guide
- Comprehensive Guide to Local Large Language Models with Ollama - Complete Toolkit

Python Machine Learning Path

- ☐ Python Data Science Fundamentals - Comprehensive Bundle
- Introduction to Machine Learning and Python Data Science - Total Overview
- ☐ Build Machine Learning Models and Neural Networks - Total Mastery Bundle

Game Development Path

Unity Courses

- Unity Game Development for Absolute Beginners and All Ages - Full Bundle
- Modern Unity AI Bundle with Muse, Stable Diffusion, and CivitAI
- Unity DOTS ECS Game Development - Complete Beginners Series

Unreal Courses

- Beginners Game Development in Unreal Engine 5 - Comprehensive Introduction
- Unreal Engine 5 AI Development with GPT, Lumen and Nanite
- Automated Game Development in UE5 with ChatGPT - A Comprehensive Bundle
- Creating Dynamic NPC Game Conversations with ChatGPT in UE5 - End-to-End Guide
- Multiplayer Game Development in Unreal Engine 5 - The Complete Bundle

- Unreal Engine 5 Real Time Strategy Game Development - Comprehensive Guide

Godot Courses

- Godot Game Development for Absolute Beginners and All Ages - Complete Series
- GDScript Programming in Godot 4 For Everyone - Full Bundle
- Multiplayer Programming in Godot 4 in 3D Platformer - Complete Training
- Build RPG in Godot 4 - Full Bundle From Beginner to Advanced
- Build a Survival Game in Godot 4 - Comprehensive Development Guide

Web Development Path

- Web Development Fundamentals with HTML, CSS, and Bootstrap - Complete Guide
- JavaScript for Beginner to Advanced - The Complete Journey
- Web Design with Advanced CSS - Comprehensive Mastery
- Build Websites with JavaScript and Tailwind CSS - The Ultimate Guide
- The Complete Advanced ReactJS Web Developer Masterclass
- Build Online Store with ReactJS FullStack Web Development - End-to-End Mastery
- ChatGPT Automated Web Development Guide - Complete Bundle

Cybersecurity Path

- Cybersecurity Mastery - Total Data Protection and Advanced Encryption Techniques
- Ultimate Cybersecurity Incident Response and Threat Hunting Bundle
- Linux Fundamentals for Ethical Hacking - The Complete Journey

---

The Complete Excel, Python and Machine Learning Mega Bundle Encore+

Get Started with Excel:

- Master Excel Functions: Unlock the Power of Formulas for Enhanced Data Analysis
- Excel's Visual Insights: Crafting Dynamic Charts for Data Analysis

Dive Deep into Excel

- Mastering Excel for Finance: Build Balance Sheet and Financial Statements
- Mastering Data Visualization in Excel: Unveiling Insights with Dashboards
- Master Excel PivotTables for Sales Data Insights
- Excel VBA Programming: Unleash Your Excel Expertise from Novice to Advanced

Learning Excel Power Tools

- Data Visualization Magic with Power BI: Excel's Partner in Insights
- AI-Driven Business Intelligence: Excel DAX and Power Unleashed
- Excel Power Query and M Mastery: From Novice to Expert Excel Data Transformation

Learn Python Data Science:

- Python Mastery: From Novice to Pro in Programming

- Pandas Proficiency: Python's Data Analysis Prowess for Beginners
- Python's Graphical Magic: Visual Storytelling with Matplotlib
- Mastery of NumPy: Python's Dominance in Data Analysis

Prompt Engineering with Copilot (First-Time Exclusive Humble Bundle Launch)

- CoPilot Prompt Engineering in Excel - Unleash Data with AI
- Prompt Engineering with Microsoft Copilot - Mastering Prompts for Personalized Results

Machine Learning Fundamentals (First-Time Exclusive Humble Bundle Launch)

- Foundations of Machine Learning and AI for Everyone
- Cutting-Edge AI - Advanced Techniques and Emerging Technologies
- The Future is Now - AI in Modern Industry and Beyond
- AI at Work - Applications and Industry Transformations
- AI in Action - Specialized Applications Across Sectors

Dive into Machine Learning:

- From Excel to Python: Transforming Data Science Workflows
- Embark on Your Data Science Journey: Beginner Machine Learning Bootcamp
- Unlock Insights: Sentiment Analysis for Product Review Classification
- Data Engineering and Machine Learning: Excel's Data Science Evolution
- Bridging Privacy and Learning: Differential Privacy and Federated Learning in Python
- Effective Stock Strategies with Python: Crafting Winning Approaches

Python for Stock Analysis:

- Cracking Stock Market Insights: Python's Power in Data-Driven Trading
- Advanced Portfolio Analysis with Python: Deciphering Stock Data
- Strategic Stock Analysis: Harnessing Python's Strengths with NumPy and Pandas
- Predictive Insights: Python's Role in Stock Market Analysis
- Deep Learning Insights with Python: Unveiling Stock Market Dynamics
- Cracking Stock Market Insights: Python's Power in Data-Driven Trading
- Advanced Portfolio Analysis with Python: Deciphering Stock Data
- Strategic Stock Analysis: Harnessing Python's Strengths with NumPy and Pandas

Python for Automation:

- Unraveling Regex: Python's Advanced Techniques in Excel
- Python for Automation: Streamlining Workflows with Scripting
- Mastering Selenium for Web Automation with Python
- Automate Your Computer with Python's Selenium Framework
- Streamline Excel Operations with Python's OpenPyXL Automation

Automation with ChatGPT:

- Automate Excel Data Manipulation with Python and ChatGPT
- Excel Data Visualization Revamped: Python and ChatGPT for Dynamic Insights

- Mastering Power BI: Elevate DAX and M with Python and ChatGPT
- Build AI Apps with ChatGPT and Python
- Automate Python Data Visualization in Power BI with ChatGPT
- Automate Python Machine Learning with ChatGPT
- Sales Analytics and Modeling in Excel with ChatGPT
- Advanced Business and Excel in ChatGPT

Bonus courses

- Build a Machine Learning Model in Godot 4
- Unlocking Game AI: Build a Neural Network in Godot 4
- Train AI-Driven Platformer Characters in Godot 4
- Train a FPS Game Machine Learning Agent in Godot 4
- 3D Game Machine Learning in Godot 4

The Complete AWS, CompTIA, Azure and Google Cloud Certification Bundle

Start Here: Google Cloud Machine Learning

- Build Generative AI Projects with Google Cloud and Python with Practice Exam
- Google Professional Machine Learning Engineer Certification (GCP-PMLE) with Practice Exam
- Professional Google Workspace Administrator Certification (GCP-PGWA) with Practice Exam

Let’s Begin: CompTIA Fundamentals

- The Essential CompTIA A+ Certification Masterclass (220-1101) with Practice Exam
- The Extensive CompTIA Project+ Certification Training (PK0-005) with Practice Exam

For Beginners: Windows and PowerShell

- Windows Terminal Mastery - From Novice to Customization Pro with Practice Exam
- Windows Configuration Wizard - Unlocking System Mastery with Practice Exam
- PowerShell Elite - The Complete Scripting & Automation Toolkit with Practice Exam
- Automate Like a Pro - Advanced PowerShell Scripting with Practice Exam

Next: Microsoft Azure Machine Learning

- Designing and Implementing an Azure AI Solution Certification (AI-100) with Practice Exam
- Designing and Implementing a Data Science Solution on Azure Path (DP-100) with Practice Exam

Continue with: Google Cloud Fundamentals

- Google Professional Cloud Security Engineer Certification Bundle (GCP-PCSE) with Practice Exam
- The Definitive Google Associate Cloud Engineer Certification (GCP-ACE) with Practice Exam
- Google Professional Cloud Architect Certification Training (GCP - PCA) with Practice Exam
- Google Cloud Professional Data Engineer (GCP-PDE) Certification

Dive deep: Microsoft Azure Certification

- The Essential Microsoft Azure Administrator Certification (AZ-104) with Practice Exam
- The Complete Microsoft Azure Security Technologies Certification (AZ-500) with Practice Exam

Continue to: Amazon Web Services (AWS) Certifications

- The Complete AWS Certified SysOps Administrator - Associate (SOA-C02) with Practice Exam
- The Ultimate AWS Certified Cloud Practitioner (CLF-C01) with Practice Exam
- The Extensive AWS Certified Security - Specialty Series (SCS-C02) with Practice Exam

Up next: CompTIA Security

- The Absolute CompTIA Security+ Certification Path (SY0-701) with Practice Exam
- CompTIA Advanced Security Practitioner Certification Series (CASP+) with Practice Exam
- CompTIA Cybersecurity Analyst+ Certification Bundle (CySA+) with Practice Exam

Up next: Java Spring Boot Mastery Bundle: From Beginner to Advanced with Practice Exam

- Embark on Your Java Spring Boot Journey: From Beginner to Application Builder with Practice Exam
- Dive Deep into Data: Mastering Spring JDBC, JPA, and Hibernate to Completion with Practice Exam
- Build Your Ultimate Web Application: Java Spring Boot Takes You There with Practice Exam
- Transform Your Ideas into Reality: Create a Java Web Application with Spring Boot with Practice Exam
- Turn Your Vision into Action: Craft the Ultimate Java To-Do CRUD Application with Spring Boot with Practice Exam
- Jumpstart Your Coding Adventure: Java Spring Framework for Beginners with Practice Exam
- Take Control of Your Data: Managing Java Objects with the Dynamic Spring Framework with Practice Exam
- Elevate Your Skills: Unleashing the Power of Advanced Java Spring Framework with Practice Exam
- Realize Your Dreams: Building a Real-World App with the Ultimate Java Spring Framework with Practice Exam
- Design Your User Interface with Finesse: Java Spring Framework to Completion with Practice Exam
- Forge Ahead with Confidence: Building a Simple REST API with Spring Boot with Practice Exam
- Connect and Share with the World: Crafting a Social Media App REST API with Spring Boot with Practice Exam
- Pushing the Limits: Creating Advanced REST API Resources with Spring Boot with Practice Exam
- Refining Your Craft: Implementing Filtering for REST API in Spring Boot with Practice Exam
- Unleash the Potential of Java: Building a Java REST API Application with MySQL to Completion with Practice Exam

Dive deep: Cybersecurity

- The Art of Ethical Hacking - Penetration Testing Unleashed with Practice Exam
- Data Fortress - Advanced Protection and Encryption Techniques with Practice Exam
- Mobile Security Vanguard - Best Practices and Strategies with Practice Exam
- Cloud Defense - Security and Risk Management Essentials with Practice Exam
- Incident Command - Expert Response and Threat Hunting with Practice Exam
- Cyber Shield - Mastering Web Application Security with Practice Exam

Next: Continue your AWS journey

- The Definitive AWS Certified DevOps Engineer - Professional Path (DOP-C02) with Practice Exam
- The Absolute AWS Certified Advanced Networking - Specialty (ANS-C01) with Practice Exam

Next: Continue your CompTIA journey

- The All-in-One CompTIA PenTest+ Certification (PT0-002) with Practice Exam
- The Definitive CompTIA Linux+ Certification Bundle (XK0-005) with Practice Exam
- The Ultimate CompTIA Network+ Certification (N10-008) with Practice Exam

Coming up: More AWS courses

- The Essential AWS Certified Developer - Associate Bundle (DVA-C02) with Practice Exam
- AWS Certified Solutions Architect - Professional (SAP-C02) with Practice Exam
- AWS Certified Solutions Architect - Associate (SAA-C03) with Practice Exam

Coming up: Continue your Azure journey

- Designing and Implementing Microsoft DevOps Solutions Certification (AZ-400) with Practice Exam

Coming up: More CompTIA

- The Complete CompTIA Cloud+ Certification (CV0-003) with Practice Exam

---

The Complete 130-HOUR Prompt Engineering, API and Game Development Bundle

Welcome to Prompt Engineering

- Creative Innovations with Claude AI - In-Depth Training with Exam Preparation
- Creative Innovations with Claude AI - In-Depth Training with Exam Preparation - PRACTICE EXAM
- Mastering Gemini - Advanced Strategies for Content Creation with Practice Exam

API Programming Prerequisite

- Python Language Fundamentals: Learn Python from Scratch
- Python Language Fundamentals: Learn Python from Scratch - PRACTICE EXAM

Claude Chatbot Software Integration with API Programming

- Prompt Engineering for Claude LLM with Anthropic API - Techniques in Python
- Prompt Engineering for Claude LLM with Anthropic API - Techniques in Python - PRACTICE EXAM
- Claude Chatbot Prompting Strategies with Anthropic API
- Claude Chatbot Prompting Strategies with Anthropic API - PRACTICE EXAM
- Prompt Construction Techniques with Claude Anthropic API and Python
- Prompt Construction Techniques with Claude Anthropic API and Python - PRACTICE EXAM

Advanced Integration with Anthropic API

- Advanced Chatbot Prompting Techniques with Claude Anthropic API
- Advanced Chatbot Prompting Techniques with Claude Anthropic API - PRACTICE EXAM

- Master Computer Vision with Claude AI Python SDK
- Master Computer Vision with Claude AI Python SDK - PRACTICE EXAM
- Transform Data into Insights - AI PDF Analysis and Data Visualization in Claude, Python and Matplotlib
- Transform Data into Insights - AI PDF Analysis and Data Visualization in Claude, Python and Matplotlib - PRACTICE EXAM

Build Advanced Claude Chatbot Coding Projects

- Advanced Claude Prompt Engineering - Innovate in Voyage AI with Python
- Advanced Claude Prompt Engineering - Innovate in Voyage AI with Python - PRACTICE EXAM
- Prompt Optimization with Claude LLM
- Prompt Optimization with Claude LLM - PRACTICE EXAM
- AI Image and Video Generation in Python Stable Diffusion with Stability AI and Practice Exam
- AI Image and Video Generation in Python Stable Diffusion with Stability AI - PRACTICE EXAM

Gemini Chatbot Software Integration with API Programming

- Google Gemini Large Language Model API Essentials - Python Integration for Beginners
- Google Gemini Large Language Model API Essentials - Python Integration for Beginners - PRACTICE EXAM
- AI App Development Mastery - Build with Gemini Python SDK
- AI App Development Mastery - Build with Gemini Python SDK - PRACTICE EXAM

AI in Godot Game Development

- Godot Game Development for Absolute Beginners and All Ages
- Creating Claude Chat Systems in Godot - REST API Techniques
- Creating Claude Chat Systems in Godot - REST API Techniques - PRACTICE EXAM
- Seamless Gemini Chatbot Integration in Godot - Leveraging REST API
- Seamless Gemini Chatbot Integration in Godot - Leveraging REST API - PRATICE EXAM
- Essential ChatGPT Techniques for Godot Game Creators

AI in Unity Game Development

- Unity Game Development for Absolute Beginners and All Ages
- Build Anthropic Claude LLM Chat in Unity with REST API
- Build Anthropic Claude LLM Chat in Unity with REST API - PRACTICE EXAM
- Unity Development with Google Gemini API
- Unity Development with Google Gemini API - PRACTICE EXAM
- Unity's AI-Powered Game Development - Integrating Diverse Tools like ChatGPT, Muse, and More

AI in Unreal Game Development

- Fundamentals of Unreal Engine 5 - An Introduction for New Developers
- Claude Chatbot Integration in Unreal Engine 5 with REST API
- Claude Chatbot Integration in Unreal Engine 5 with REST API - PRACTICE EXAM
- Integrating Gemini Chatbot in Unreal Engine 5
- Integrating Gemini Chatbot in Unreal Engine 5 - PRACTICE EXAM
- Crafting Engaging Non-Player Character Interactions with ChatGPT in Unreal Engine 5

- Elevating Game Design in Unreal Engine 5 - Advanced AI, Vehicle Mechanics, and Realism Techniques
- Seamless ChatGPT Integration Techniques in Unreal Engine - OpenAI API Expertise

AI in 3D Modeling

- 3D Modeling with Blender 3.3 for Beginners
- 3D Modeling with Generative AI - Luma Labs with Blender 4.1 for Design and Repair
- Comprehensive Meshy AI - Build 3D Models with Prompt Engineering

Prompt Engineering with ChatGPT

- Foundations of ChatGPT: Comprehensive Prompt Engineering and Practice Exam
- Foundations of ChatGPT: Comprehensive Prompt Engineering - PRACTICE EXAM
- Mastering ChatGPT: Proven Strategies and Practice Exams for Success
- Mastering ChatGPT: Proven Strategies for Success - PRACTICE EXAM
- Mastering ChatGPT: Advanced Prompt Engineering Techniques and Practice Exam
    - Practice Exam - ChatGPT Prompts for Research, Copywriting and Career Prep
    - Practice Exam - Automate Coding with ChatGPT Prompts
    - Practice Exam - ChatGPT Prompts and Best Practices for Python Coders

OpenAI Chatbot Software Integration with API Programming

- Beginners Guide to LangChain Development with Python
- Unlocking OpenAI's Potential: Mastering Python for OpenAI Applications with Certification Exam
    - Practice Exam - Build coding and data science AI apps with OpenAI Python API
    - Practice Exam - Automate marketing and copywriting with ChatGPT API Python
    - Practice Exam - Customize OpenAI machine learning with Python web scraping data
    - Practice Exam - Build custom OpenAI ChatGPT API Python apps with embeddings
    - Practice Exam - Build AI Applications with OpenAI Vision and Whisper
    - Master OpenAI with GPT Assistants, Function Calling and JSON Mode - PRACTICE EXAM
    - Practice Exam - Build Python Projects with OpenAI
    - Practice Exam - Build a ChatGPT Clone with Python Custom UI
    - Practice Exam - Build a ChatGPT Chrome Extension with Python
    - Practice Exam - Build AI Apps with ChatGPT and Python
    - Practice Exam - Video Analysis and AI Python App Development with OpenAI Vision
    - Practice Exam - Build a Screenshot to Code OpenAI Python App
- Ollama LLM Comprehensive Guide - Enhancing AI Conversations and Integrating with Python
    - Practice Exam - Run and Customize Ollama Local Large Language Models
    - Practice Exam - Build Local Private Chatbots with Ollama Large Language Models

Business and Financial Prompt Engineering

- Advanced Prompt Engineering for Finance and Stock Market Investing with ChatGPT 4: Comprehensive Practice Exam
    - Practice Exam - Predict stock performance with ChatGPT
    - Practice Exam - Stock Analysis with ChatGPT
    - Practice Exam - Build an Investment Plan with ChatGPT
    - Practice Exam - Stock Market Prediction and Risk Analysis with ChatGPT

    - Trading Strategies, Sentiment Analysis and Fraud Detection with ChatGPT- PRACTICE EXAM
- Business Analytics Mastery Using Gemini
- Business Analytics Mastery Using Gemini - PRACTICE EXAM
- Business Optimization with ChatGPT: Advanced Strategies and Practice Exam
    - Practice Exam - Intro to ChatGPT 4 for Entrepreneurs
    - Practice Exam - ChatGPT for CEO Team Management
    - Practice Exam - ChatGPT for Global Business Engagement
    - Practice Exam - ChatGPT for Strategic Decision Making
    - Practice Exam - ChatGPT Prompts and Analysis for Leadership
    - Practice Exam - The Complete ChatGPT Automation Masterclass for Coaches and Trainers
    - Practice Exam - ChatGPT for C-Level Communications
    - Practice Exam - ChatGPT for Data Analysis and Task Management
    - Practice Exam - Sales Automation with ChatGPT and Excel
    - Practice Exam - Automate Business Writing with ChatGPT
    - Practice Exam - Automate Social Media Business with ChatGPT
    - Practice Exam - Automate business tasks with ChatGPT Prompt Engineering
- Revolutionizing Sales with Claude AI - In-Depth Training with Practice Exam
- Revolutionizing Sales with Claude AI - In-Depth Training - PRACTICE EXAM
- Strategic Prompt Engineering for Marketing Professionals: ChatGPT Mastery with Practice Exam
    - Practice Exam - Introduction to ChatGPT 4 Prompts for Marketing
    - Practice Exam - Build Social Media and Blog Posts with ChatGPT 4 Prompts
    - Practice Exam - Build Emails, Ads and Videos with ChatGPT 4 Prompt Engineering
    - Practice Exam - Build Marketing Funnels and Analyze Customers with ChatGPT 4
    - Practice Exam - Web Development, Branding and eCommerce with ChatGPT 4
    - Practice Exam - ChatGPT for Marketing Automation

Educational and Document Management Prompt Engineering

- ☐ Automating Education with Gemini
- Automating Education with Gemini - PRACTICE EXAM
- ☐ Claude AI as an Advanced Personal Assistant
- Claude AI as an Advanced Personal Assistant - PRACTICE EXAM
- ☐ Claude AI in Document Analysis and Management
- Claude AI in Document Analysis and Management - PRACTICE EXAM
- ☐ Claude AI's Role in Revolutionizing Education - Comprehensive Training
- Claude AI's Role in Revolutionizing Education - Comprehensive Training - PRACTICE EXAM
- ☐ Mastering Gemini - Transform It Into Your Personal Assistant with Practice Exam

Creative and Multimedia Applications

- Build Your Own Viral AI Music with Udio Prompt Engineering
- ☐ Building Modern Websites with ChatGPT - Techniques in React, JavaScript, and CSS
- Mastering Image Generation with Midjourney AI and Python: A Comprehensive Masterclass with Certification Exam
    - Practice Exam - The Complete Midjourney and Python Image Generation Masterclass (25 Hours)
    - Practice Exam - Generate Video Game Pixel Art with OpenAI DALL-E Experiments

Data Science and Analysis

- Excel and PowerBI Automation Mastery with ChatGPT, Python, and Machine Learning: Practical Training and Practice Exam
    - Practice Exam - ChatGPT for Sales Best Practices
    - Practice Exam - ChatGPT for Outreach Strategy
    - Practice Exam - ChatGPT for Lead Generation
    - Practice Exam - Improve LinkedIn Sales with ChatGPT
    - Practice Exam - ChatGPT for Sales Role Play
    - Practice Exam - Automate Excel with ChatGPT
    - Practice Exam - Build Investment Dashboard with ChatGPT and Excel
    - Practice Exam - Measure Sales Performance with KPIs in Excel and ChatGPT
    - Practice Exam - Sales Data Analysis and Visualization in Excel with ChatGPT
    - Practice Exam - Sales Modeling in Excel with ChatGPT
    - Practice Exam - Sales Forecasting with Machine Learning in Excel with ChatGPT
    - Practice Exam - Automate Excel Data Manipulation with Python and ChatGPT
    - Practice Exam - Automate Data Distribution Visualization with ChatGPT and Python
    - Practice Exam - Automate Power BI DAX and M with ChatGPT
    - Practice Exam - Automate Python Data Visualization in Power BI with ChatGPT
    - Practice Exam - Automate Python Machine Learning with ChatGPT

The Complete Advanced Algorithms Programming Bundle

Fundamentals of Algorithms

- The Complete Algorithm Theory Course

Data Structure Algorithms

- The Ultimate List Algorithms Course with Practical Application
- The Definitive String Algorithms Course with Programming
- The Stack and Queue Algorithms Masterclass - Advanced Applications Unlocked
- The Complete Advanced Matrix Algorithms Course - Learn to Code
- Graph Algorithms Unleashed - Cutting-Edge Theory and Real-World Applications
- Tree Algorithms Exposed - Mastery of Advanced Data Structures

Foundational Algorithms

- Search Algorithms Mastery - Supercharging Your Search Capabilities
- Advanced Divide and Conquer Strategies - Mastering Complex Algorithms
- Dynamic Programming Demystified - Solving Complex Problems with Ease
- Advanced Greedy Algorithms - Innovative and Powerful Strategies
- Shortest Path Algorithms Revealed - Discovering Optimal Routes
- ☐ Deep Dive into Recursive Algorithms - Exploring Advanced Techniques
- Hashing Algorithms Explored - Cutting-Edge Techniques and Applications

Advanced Algorithms

- ☐ The Complete Pathfinding Algorithms Masterclass
- Collision Detection Algorithms - Advanced Methods for Modern Games

- Recommendation Algorithms - Advanced Techniques from Billion Dollar Software
- Masterclass in Probabilistic Algorithms - Leveraging Randomness for Efficient Computation
- Complete Game Theory Algorithms - Strategic Mastery for Victory
- ☐ Machine Learning Algorithms Demystified - From Basics to Advanced Techniques
- ☐ Deep Learning Algorithms - Cutting-Edge Techniques for Modern AI

Deep Dive into Algorithm Theory

- Advanced Algorithms Visualized - Sorting, Subarrays, and Array Manipulations with Time and Space Complexity
- Data Structures Mastery - Visualizing with Time and Space Complexity
- Tree and Heap Mastery - Visualize Advanced Algorithms with Time and Space Complexity
- Revolutionary Algorithms in Image Machine Learning - Dive into Diffusion Models and Time-Series

Build Web Development Algorithms with JavaScript

- The Comprehensive JavaScript Fundamentals and Algorithms Masterclass
- The React JavaScript Algorithms Bundle
- Advanced Algorithms for Web Development: Building CRUD Applications with SocketIO
- The Ultimate CRUD Quest - Master Node.js and Express with Advanced HTTP Algorithms
- The Unabridged SQL Algorithms Epic Bundle
- MongoDB Masterclass - Integrate with Node and Express for Web Development Excellence
- Mastering Node and Express: Advanced Algorithms for Full-Stack Development

Unity Algorithms Mastery

- Mastering Unity - Advanced User Controls, Camera Magic, and Game Object Manipulation for 2D and 3D Games
- Ultimate Unity Algorithms Course - Optimize Game Size with Advanced Source Control and Serialization
- The Complete Unity Graphics Course - Transform Your Game with Advanced Shaders and Algorithms

Algorithms in Coding Languages Series

- The In-Depth C# Fundamentals and Algorithms Power Pack
- The Elite Java Fundamentals and Algorithms Bundle
- The Extensive C++ Fundamentals and Algorithms Mastery Vault
- Massive Swift Fundamentals and Algorithms Bundle
- Kotlin Fundamentals and Algorithms Bundle in Android Studio
- The Universal Math Algorithms Treasure Trove

The Complete 101-HOUR Learn to Code, Python and Machine Learning with 770+ ASSETS Bundle

Start here! Learn to code.

- ☐ Comprehensive Python Foundations - A Beginner's Guide to Coding
- ☐ Python Coding Essentials Bundle - Build Projects and Learn to Code

Ultimate Python Developer's Toolkit (Codebases)

- 77+ Python App Collection - SaaS Starter Templates
- 333+ Python Interview Question Patterns and Code Solutions
- 255+ Killer One-Liners in Python - Complete Development Kit
- 101+ PyGame Codebases - Video Game Collection Make your dreams reality. Build the next big app using our templates as your accelerated starting point!

Python for Finance Master Series

- Master Real-Time Stock Data Acquisition and Web Scraping with Python
- Crack Algorithmic Trading With Python and Interactive Brokers
- Become a TradingView Expert - Transform Strategies with PineScript
- Options Trading Unleashed - Master the Greeks and Crush the Market with Expert Tactics
- Quantitative Finance Masterclass - Cutting-Edge Trading and Python Simulations
- Ultimate Python-Driven Trading - Sentiment, NLP, and Advanced Machine Learning
- Foundations of Financial Analysis - Python Tools for Investors
- Complete Financial Engineering - High-Frequency Trading and Portfolio Mastery
- Python Investment Toolkit - From Basics to Advanced Risk Management
- Elite Financial Prediction Toolkit - Python Data Science for Stock Markets

Mastering Predictive AI with Python and Cursor

- Fundamental Command Line for Beginners - Developer Essentials
- Foundations of Predictive Machine Learning with Python and Cursor
- Predictive Machine Learning: From Theory to Practice with Python and Cursor
- Time Series Forecasting with Predictive Machine Learning with Python and Cursor
- Advanced Techniques in Predictive Machine Learning with Python and Cursor
- Real-Time Predictive Machine Learning with Python and Cursor
- Predictive Machine Learning in Finance: Risk Modeling and Forecasting with Python and Cursor
- Predictive Machine Learning for Business Decision Making with Python and Cursor
- Building Scalable Predictive Machine Learning Systems with Python and Cursor

Data Science Pathway: Building Solid Foundations

- Data Analysis for Everyone - Beginner's Guide to Pandas and Python Essentials
- Explore Data Like a Pro - Fun with Python, Seaborn, and Pandas for Analysis
- Visual Mastery - Stunning Image Manipulation and Data Visualization with NumPy, PyPlot, and Seaborn
- ☐ Data Science Powerhouse - Dive Deep, Analyze, and Transform Data with Python and Pandas
- Data Visualization Mastery - Unlock Stunning Graphs with Python and PyPlot
- Data Science Foundations - Dive into Python and NumPy for Powerful Insights
- Image Transformation Secrets - Unleash the Power of OpenCV and Python for Mind-Blowing Edits
- SQL Secrets Unveiled - Python's Guide to Databases
- Crack the Code - Unlock Python Regular Expressions
- ☐ Ultimate Python File Mastery - Handling Data Like a Pro

Machine Learning Pathway

- ☐ Data Engineering Excellence - Unlock the Secrets of Machine Learning

- ☐ Python Algorithm Mastery - Harness the Power of Machine Learning

Advanced Mastery: Conquering Complex Challenges

- TensorFlow Innovation Hub - Build Cutting-Edge Machine Learning Models
- Python Machine Learning for Healthcare - Predictive Modeling and Disease Detection
- Excel to Python Bundle - Transform Your Data Science Skills with Automation Mastery

Build Games with Python

- Create Your First Python Game - Build an Exciting Coin Collection Game with PyGame
- Flappy Bird Challenge - Clone the Classic Game Using Python and PyGame
- Game Developer's Toolkit - Craft a Top-Down Tile-Based RPG with PyGame

Build User Interface Applications with Python

- Python GUI Essentials - From Beginner Apps to Multi-Project Mastery
- Python Tkinter Database Mastery - Building Full-Stack and Multi-Table Applications

---

The Complete Crush Your New Year's Resolution Learn to Code Bundle

Start Your Game Development Journey

- Unreal Engine 5 Mastery for Beginners - Start Building Games Today
- Unreal Engine 5.5 Game Creation Bootcamp - Build Your First Game Fast (First-Time Exclusive Humble Bundle Release)
- Unreal Engine 5.5 Unlocked - Master the Latest Tools and Updates
- Unreal Engine 5 Multiplayer Mastery - Build and Launch Thrilling Online Games - All-in-One Bundle
- Unity and C# Complete Beginner's Guide - Build Games from Scratch
- Unity 6 Game Development - Clone a Viral 2D Dress Up Game
- Godot and GDScript Fundamentals - All-Ages Game Development Made Simple

Start Your Web Development Journey

- Web Development for Absolute Beginners - HTML, CSS and Command Line
- JavaScript for Beginners - Build Your First Websites and Applications
- Advanced JavaScript Mastery - Build Dynamic, Interactive Websites
- Complete Beginners React JS - Elevate Your Web Development Skills

Build Modern Web Projects

- 3D Web Development Fundamentals - Jump into Three.js

- Interactive 3D Data Visualization Mastery - Build THREE.JS Web Applications (First-Time Exclusive Humble Bundle Release)
- AR on the Web - Build Immersive Augmented Reality Web Applications with AR.js (First-Time Exclusive Humble Bundle Release)
- Build a 3D Product Viewer for E-Commerce - Profitable Web Development (First-Time Exclusive Humble Bundle Release)
- WebVR Mastery - Create Immersive VR Experiences with A-Frame (First-Time Exclusive Humble Bundle Release)
- TensorFlow.js AI Masterclass - Build Real-Time Machine Learning Web Applications (First-Time Exclusive Humble Bundle Release)
