Breach: HTTPS and Wireshark

Objectives:

- Gain/Re-enforce skills with regards to HTTPS certificates, Java Keystores, and Wireshark for the purposes of decrypting encrypted traffic in a .pcap capture file.
- This info will be used to further enumerate the target system, eventually leading to system compromise.

Outline:

Code Snippets:

- ```
  keytool -importkeystore -srckeystore keystore -destkeystore breach.p12 -
  srcstoretype JKS -deststoretype PKCS12
  ```
